## ABOUT ME

---

I am a PhD student at the University of New Hampshire, Durham, USA. I am part of the Text Retrieval Extraction Machine learning and Analysis (TREMA) lab at UNH. I work with Prof. Laura Dietz.

## EDUCATION

---

### University of New Hampshire

*Doctor of Philosophy – Ph.D. in Computer Science*

**Durham, NH, USA**

*Expected: May 2025*

### Cairo University

*Masters in Computer Science*

**Cairo, Egypt**

*Completed: May 2018*

### Cairo University

*Graduate Diploma in Computer Science*

**Cairo, Egypt**

*Completed: May 2013*

### Cairo University

*Bachelor in Accounting*

**Cairo, Egypt**

*Completed: May 2006*

## SKILLS

---

- Data Mining
- Information Retrieval
- Statistical Analysis
- Programming Languages: Python, Java, R

## PROJECTS

---

### Frequency Distribution Analysis for Twitter hashtags

*May 2018*

- Analysis of the activity and the participation of Twitter users to identify the most affected events on users.
- Normalization of the time-slot and the number of tweets for a group of hashtags.

### Object Detection Using Latent Support Vector Machine

*May 2014*

- Detecting objects (persons, dogs, cats, horses) in images.

### Android Learning Mobile Application for Kids

*May 2013*

- Puzzle and English teaching application for kids at age 3-5.
